RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Official Action dated October 6, 2005, the following remarks are submitted.

The aforementioned Official Action indicates that the claims in this application are directed to two different inventions. As identified in the Official Action, the two inventions are as follows.

Group I invention recited in Claims 1-8 and 13-19 drawn to a process for mounting a bearing ring.

Group II invention set forth in Claims 9-12 and 20-23 directed to an (inner/outer) bearing ring.

Based on the observation that the two inventions are distinct from one another, a restriction requirement has been imposed requiring an election of one of the two inventions.

Applicants hereby elect, with traverse, the Group I invention recited in Claims 1-8 and 13-19.

The election of the Group I invention is made with traverse because it is believed that all of the claims of this application can be examined at the same time without serious burden. While it is recognized that the two inventions may be separately classified, it is believed that the search required for the elected invention set forth in Claims 1-8 and 13-19 would likely extend into those areas where the non-elected invention would be searched. In addition, examining the claims directed to the non-elected invention in addition to those directed to the elected invention would not require consideration of a significantly burdensome number of additional claims.

In light of the foregoing, withdrawal of the restriction requirement and examination of all of the claims of this application, including Claims 1-8 and 13-19 directed to the elected invention, are respectfully requested.

Should any questions arise in connection with this application, the undersigned respectfully requests that he be contacted at the number indicated below.

Respectfully submitted,

BUCHANAN INGERSOLL PC
